DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-3, 5-11, 13-19, 21-51 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Re Claims 1, 9, 17, 25, 37, 49, it is unclear what is meant by "omits at least some of the processing for reception of valid data from the DSL channel". Applicant is request to reference the specification so mete and bounds of "omit at least some of the processing" can be determined.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claim 49 is rejected under 35 U.S.C. 102(e) as being anticipated by Grezczuk et al U.S. Patent Number 6,445,730.

Re Claim 1, fig. 1 teaches CPE (receiving unit) that receives valid and idle cells on a channel from CO (a transmitting unit) (See col. 7, lines 13-18). Further teaches a

controller 32 for processing the valid and/or idle cells and for detecting no data (non-valid data) for given time interval (a first period of time) for entering IDLE/SLEEP mode (omit some operations) and power down (see State memory & also Col. 6, lines 1-24).

Allowable Subject Matter

5. Claims 1-3, 5-11, 13-19, 21-24, 25-48 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

6. Claims 50-51 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
